

Chromebook Login Tips

1. When in school all Chromebooks should automatically connect to HPS-WLAN wifi. If the device is not connecting to the HPS-WLAN wifi please see Ms. Condon (room 174).
2. When students login to their Chromebooks they should use their Google accounts for logging in (ex. 23bjones@hinghamschools.org - note @hinghamschools.org is necessary). The login should look similar to this image below:

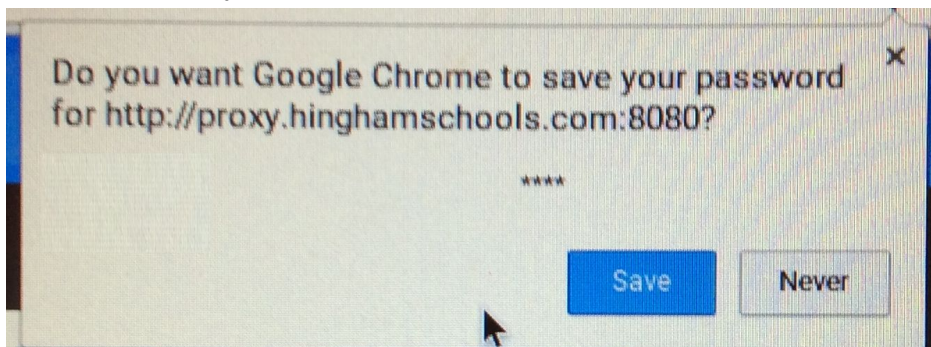

3. Once logged on to the Chromebook students will be prompted for a second Proxy authentication that is necessary for accessing websites beyond Google.com. Students should use their username only (ex. 23bjones - do **NOT** include @hinghamschools.org

for this login) This second authentication will look similar to the image below:

4. Once successfully authenticated a confirmation box will appear. Please click on Save.

PLEASE NOTE: This two step authentication process will happen each time a student starts a session on the Chromebook.

Google Login Tips

1. Students can login to their Google/Google Classroom accounts from any device that has access to the internet.
 - a. Go to Google.com and login with their student account ex. 23bjones@hinghamschools.org - note @hinghamschools.org is necessary.
