Students will strengthen their linguistic skills and gain a deeper understanding of the target culture with authentic and adapted readings and media presentations, and will learn to express themselves in both interpersonal and presentational writing and speaking. Students in upper-level language courses will engage in critical analysis of literature, culture, and history of the target civilizations.

All foreign language classes have access to the language lab at least once per cycle. The language lab is used for activities which will develop students' listening and speaking skills.

ASSESSMENT

All skills will be assessed through both traditional and performance-based methods. Listening is assessed through daily question and answer activities, comprehension exercises on tests, quizzes, class discussions and comprehension of recorded materials. Speaking is assessed through daily classroom activities and participation, skits and presentations, and conversations with the instructor. Reading is assessed through written and oral responses and class discussions about the assigned material. Writing is assessed through essays and open-ended responses to test questions. Many forms of assessment are accompanied by a rubric or scoring guide that explains the criteria for evaluation to the student. Advanced students will learn at an accelerated pace, required to sharpen writing and problem solving skills, study in greater detail, and develop study skills for tackling rigorous course work.

The main goal of foreign language courses is to enable students to communicate in the target language. To work towards this goal, a variety of instructional techniques are employed. These include but are not limited to paired and small group communicative activities, language lab exercises, whole class discussions and debates, reading activities, listening activities, and individual practice. Students will strengthen their linguistic skills and gain a deeper understanding of the target culture with authentic and adapted readings and media presentations, and will learn to express themselves in both interpersonal and presentational writing and speaking. Students in upper-level language courses will engage in critical analysis of literature, culture, and history of the target civilizations.

All foreign language classes have access to the language lab at least once per cycle. The language lab is used for activities which will develop students' listening and speaking skills.

ASSESSMENT

Students are assessed on their participation in class activities. Formative assessments include frequent quizzes and tests on speaking, reading comprehension, grammar, vocabulary, and writing. Summative assessments include comprehensive mid-year and final exams.

INSTRUCTIONAL MODEL

Students participate in listening, reading, writing, and speaking activities, many of which simulate the A.P. Exam. Students examine both speaking and writing models to compare with their own work. In addition, the class is conducted entirely in Spanish. Both students and teachers use Spanish 100% of the time in order to maximize speaking practice while minimizing anxiety about speaking Spanish “off the top of one's head.” Body language and circumlocution are also incorporated when difficulty in understanding occurs; it is better to act out a word or phrase rather than just translating into English. Frequently members of the class participate in paired activities and small group or class discussions. Finally, the grammar and vocabulary reviewed during the year is constantly recycled to maximize retention. Students will use the language laboratory approximately once per cycle.

ASSESSMENT

Student progress is measured in a variety of ways. The largest assessments are the full-length practice A.P. Exams given at the middle and end of the year. Based on their performance on these exams, students can gauge their progress and identify their problem areas.

Next are grammar and vocabulary assessments, which take on a variety of forms: written and spoken narratives, visual presentations, small group products, and essays. These activities are usually evaluated with a rubric. For essays and speaking activities, a rubric that is based on the A.P. Exam rubric is used so students can more easily isolate their areas of weakness and focus on improving them.

Finally, students participate in informal classroom activities that are not always graded, but are important to help students feel at ease speaking and thinking in Spanish. Whether working on a graded assignment or not, students are always expected to form and defend opinions, analyze, and think critically in the target language. All students are required to take the College Board's AP Spanish Language and Culture exam in the spring.

Course #334 – ADVANCED PLACEMENT SPANISH LITERATURE

DESCRIPTIVE OVERVIEW

The AP Spanish Literature and Culture course is a survey course which covers the six AP Spanish Literature themes and the entire reading list outlined within the AP Spanish Literature Curriculum Framework. The course is conducted entirely in Spanish and covers Spanish and Latin American authors, and their works, from the medieval period to the present day. The guidelines meet the ACTFL proficiency standards for advanced low students.

The two-semester course and its activities are intended to teach and enhance a student's ability to acquire, identify, understand, discuss, interpret and analyze the form and content of literary works of prose, poetry and drama along with the literary terms and conceptual aspects of art and history of the time. The lessons are designed to help students interpret the figures of speech, tone, genre, style, characters, themes and literary symbols in an effort to develop their analytical and interpretative skills.

The works are presented with the aim of integrating the historical themes and literary movements of the different time periods, and highlighting the schools of literature to which each piece belongs as well as the author's style and the characteristics of each selection. The main text, *Reflexiones: Introducción a la literatura hispánica*, provides students with the socio-cultural context necessary to fully comprehend each piece. Abridged versions of the texts are not used; the instructor provides the students with the full text in its original version.

This course challenges able students to obtain college credit or upper level placement. Students enrolled in the class are required to take the AP Spanish Literature examination in the spring and to pay the required fees.

GOALS AND OBJECTIVES

The general goals of this course are as follows:

- Foster students' appreciation for the richness of the Spanish language and Hispanic literature and culture.
- Provide opportunities for students to use the three modes of communication (interpersonal, interpretive, and presentational) in the process of learning how to analyze a literary text.
- Provide opportunities for student reflection on the relationship of a reading selection to its artistic, historical, social, and cultural contexts.

As a result of this course, the students will be prepared to take the AP Spanish Literature and Culture Exam at the end of the year.

Students will be able to:

- Comprehend the essentials of conversations between native educated Spanish speakers.
- Hear and understand spoken Spanish from recorded material such as radio programs, telephone conversations, films, and music. In addition, the class is conducted in Spanish and will follow all teacher instructions in the target language.
- Speak with an accent that does not interfere with communication.

- Hone their verbal skills to spontaneously speak about the literature they have read, express opinions, narrate, describe and explain.
- Demonstrate a good command of grammatical forms and syntactic patterns.
- Demonstrate proficiency in critical reading skills and critical thinking ability.
- Enhance and refine their writing skills in terms of structure and substance. They will also demonstrate grammatical accuracy in their written expression.

INSTRUCTIONAL MODEL

Students participate in listening, reading, writing, and speaking activities, many of which simulate the A.P. Exam. Some selections from the A.P. Literature reading list are read in class, while others are read at home. Students often complete comprehension questions to be used in class discussions. In regard to writing, frequent four to five-paragraph essays and one-paragraph writing reactions to literature readings are completed. These are timed writing responses to A.P.-style prompts and typical essay questions. On a regular basis, students examine both speaking and writing models to compare with their own work. In addition, the class is conducted entirely in Spanish by both the teacher and the students. Frequently members of the class participate in paired activities and small group or class discussions. Finally, the grammar and vocabulary reviewed during the year is constantly recycled to maximize retention. Students will use the language laboratory approximately once per cycle.

ASSESSMENT

Student progress is measured in a variety of ways. The largest assessments are the full-length practice A.P. Exams given at the middle of the year and again right before the actual test in May. Based on their performance on these exams, students can gauge their progress and identify their problem areas.

Next are vocabulary assessments, which students take once every 10 days or so in order to expand their knowledge of literary analysis vocabulary to be used in their essays. For essays, listening, and speaking activities, a rubric that is loosely based on the A.P. Exam rubric is used so students can more easily isolate their areas of weakness and focus on improving them.

Finally, students participate in informal classroom activities that are not always graded, but are important to help students feel at ease speaking and thinking in Spanish. Whether working on a graded assignment or not, students are always expected to form and defend opinions, analyze, and think critically in the target language.
